

Dobbel Western – the major Norwegian double-volume western paperback reprint series

ANDERS N. NILSSON, Nordmaling, Sweden

JAN OLE BRAATHEN, Modum, Norway

[Version 14 October 2025]

Longest running and still alive

It was a common practice in Scandinavia to re-issue western paperbacks as series of double-volumes (Nilsson 2017). In this way stories were possible to publish pair-wise a second time, and to be sold at about the same price as one new story. The cheapest way was to cut the old covers from books returned from the sellers, and just replace them with a new one common to the two volumes, placed either one after the other or back-to-back. This kind of re-distribution of already printed but unsold books with new covers in numbered series flourished in Danmark, Norway and Sweden. The longest series was in all three countries *Dobbeltwestern* or *Dubbelvästern*, provided with a similar layout in all three countries. It was in Sweden ended already in 1977, including 301 books. In Denmark at least 220 books are known, and in Norway at least 535.

Also regular omnibus reprints with their own unique printing dates were produced, and the most long-running of them all, still being published, is the Norwegian *Dobbel Western* series. Starting in 1989, this series will in 2025 reach book #364, and thus 728 titles. Our guess is that the Norwegian *Dobbel Western* series is the double-volume western paperback reprint series including the highest number of titles in the world. And at least in Scandinavia, the only one still being published.

Changing names and publishers

From the start, the Fredhøi publisher in Oslo named the series 2 *Gode Romaner* (“2 Good Novels”), and from book #14 *Dobbeltbok* was added to the name. In 1992 Fredhøi was bought by the Danish media company Egmont, whose name was first to be seen in book #85 in 1996. Egmont in 2002 moved the series to their Damm imprint, first to be seen in book #125. Damm was a Norwegian publisher bought by Egmont already in 1984. The book series had its named changed to *Dobbel Western* in 2004, first to be seen in book #140. Finally, the name of the publisher was changed to Cappelen Damm in 2008, from book #178. The Bonnier-owned Cappelen was in 2007 fused with the Egmont-owned Damm publisher, and in 2021 Egmont became the sole owner of Cappelen Damm, the current publisher of *Dobbel Western*.

All books in the series had the two novels placed one after the other. The first 53 books had separate cover paintings on the front and the back cover. After that the back cover carried only text.

Re-issued reprints

Dobbel Western includes 670 different stories, and 57 titles were reissued within the series. Only W.C. Tuttle's novel *Mission River Justice* was re-issued twice within the series. Except

Lionel White's crime story *The Snatchers*, published in book #67, all stories were westerns. As all stories were known from previous Norwegian editions, they were all reprints. Initially *Dobbelt Western* was published monthly, but in 1994 changed to every other month. From 2007 and onwards it returned to a more or less monthly schedule.

Altogether 34 Norwegian paperback series have contributed to *Dobbelt Western* (Table 1). Initially, all titles were taken from Fredhøi's own series *Norsk Pocket* that contributed with 266 titles. This series mixed crime and western. *Big Jim* was the first other series, introduced in book # 133. It was followed by the *Zane Grey* series in book # 150, soon to be followed by many other series. Besides *Norsk Pocket*, the following series were the most important sources: *Texas-bøkene* with 126, *Seksløper-bøkene* with 110, and *Zane Grey* with 55 titles.

Library of western novels

If viewing all the *Dobbelt Western* books as a library of western novels, one could ponder on what's there and what's not. The 186 author names boil down to about 150 different authors being represented, with the five house names adding some uncertainty (Table 2). The 109 author names with only one book each are reduced to 87 authors after removing multiple pseudonyms. Jackson Cole, i.e. chiefly Leslie Scott, with 134 titles, and Zane Grey with 55 ones may indeed seem overrepresented. On the other hand, they make certain that the early western literature is well represented, as well as pulp magazine writers. Other well represented rather early authors are William MacLeod Raine, W.C. Tuttle and Thomas Thomson, with the two latter also with frequent re-issues. At least some of the re-issues, like those by Thomson, may be due to the fact that the titles were re-issued also in the source series, in this case *Norsk Pocket*.

Actually, the different time periods all have their representatives on the list, all the way to the adult westerns from the 80's like *Buckskin* and *Ryder*. However, after J.D. Hardins books were reprinted in 2018, *Dobbelt Western* did return to the older stuff, dominated by Walt Slade stories and more classical American western authors from the *Seksløper* series in the 60's. In fact, the Norwegian *Buckskin* edition from 1991 is the most recent source of books reprinted in *Dobbelt Western* so far. We guess this is the price to pay when the only remaining western paperback series is a reprint series. To us, it would seem to be a mighty good idea for the editors to start to include titles from some more recent American western writers, and start to introduce new stuff instead of digging up more of the older stuff to reprint.

The more than one hundred American authors contributed with 73% of the titles published in *Dobbelt Western*, including re-issues. Australia's 18 authors had written 18% of all titles, and here Marshall Grover's *Big Jim* novels were highly influential. With about the same number of authors as Australia, Great Britain's share of titles was only 7%, and here Angus Wells stands out with his 13 titles. The occasional Scandinavian authors are Ed Edson from Denmark, Kris Winther from Sweden, and the two Norwegians Trygve Lund and Olav Ottersen.

From a Norwegian view, the major absence in *Dobbelt Western* is of course Kjell Hallbing and especially his Morgan Kane stories. But Morgan Kane was first published by Bladkompaniet, although some of his earlier titles were issued by the E. Green publisher, also represented in

Dobbelt Western. Moreover, from 2022 also Cappelen Damm is publishing the Morgan Kane stories. But not in *Dobbelt Western* so far.

From Australia we primarily miss Leonard Meares' *Larry & Stretch* series, in Scandinavia know as *Bill & Ben*. As Egmont was involved in the publication of this extremely long and popular series in Norway, the major reason for its absence in *Dobbelt Western* seems to be its reprinting as a separate series all up to 2010 (Nilsson & Ødegaard 2025).

The major British absence is no doubt Peter Watts writing as Cy James and Matt Chisholm with heroes such as McAllister, but Watts was siding with Bladkompaniet. Although American authors are so well represented, some absences from *Dobbelt Western* are noteworthy. Benjamin Haas writing as John Benteen comes to mind, with heroes such as Fargo and Sundance. However, the major gap in *Dobbelt Western* has to be Louis L'Amour. Especially so as Fredhøi in 1985 was the first Norwegian publisher to start a paperback series devoted to this author.

We here provide a list of the contents of all 634 books in the *Dobbelt Western* series 1989-2025. In two separate tables, the contributing authors as well as the Norwegian paperback series used as sources are listed. Finally, most of the book covers have been collected on plates in the Appendix.
